VENTURA CUSTOM HOMES

As one of the area's most successful and dynamic builders, Ventura Custom Homes can appreciate buyers' expectations in building a custom home in a challenging economy. For most, this doesn't mean they can't have the home of their dreams. It just means building smarter and shopping wiser.

Meeting clients' expectations, not just in quality but also in cost, is more important than ever. "Our customers are smart to build now, as they will appreciate the many great values and opportunities we find them in quality, pricing, and in construction time while keeping the beautiful aesthetics for which Ventura is known," says Loy Lowary.

Ventura and its award-winning design and construction team take pride in having more than 80 years of construction experience, with several staff members holding engineering degrees. This is the reason for the builder's many awards, including the Luxury Home of the Year award in 2010 and the Best Builder in Dallas award in 2011 as voted by their peers.
